DETAILED ACTION

Response to Amendment

The amendment filed on August 19, 2004 has been entered. Claims 3 and 5 have been amended and are presented for further examination. Claim 1 and 2 had been cancelled.

Claims 3-5 are presented.

Allowable Subject Matter

Claims 3-5 are allowed.

The following is an examiner's statement of reasons for allowance:

Pursuant to 37 C.F.R. 1.104(e) and MPEP 1302.14, the following is an Examiner's statement for allowance: The prior arts do not teach the invention, as claimed, such that an external sensor or actuator monitoring a technical process allows data collected from the technical process to be received by a server and exchanged with a distribution component which in turn exchanges data with a client, wherein client has not explicit call code and thus the data received by the client brings about an immediate execution of a specific code associated with a client's respective property (see Applicant's arguments advanced in paper filed August 19, 2004).

The Examiner considers the Applicant's claims 3-5 to be allowable based on the claim interpretation and prior arts.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
